Rationale for Deletion:

Originally digital video was taught under the WECM IMED rubric, but in 2009 WECM created a separate rubric ARTV for video-related courses. Prior to the addition of this, more appropriate ARTV rubric, and as an interim measure the IMED 2459, Interactive Web Elements, course was used to incorporate the digital video content and experience into the curriculum. The ARTV rubric is the correct choice. Pending approval of the addition of ARTV 1451 (via a separate Form and collateral request for action), deletion of IMED 2459 from the College course inventory and catalog is requested.

Will this deletion impact other departments? [X] Yes [ ] No

If yes, provide an explanation how this request has been addressed and received by other departments. You may also provide letters of support from impacted departments.

Last semester course was offered at Del Mar College: Spring 2010

Proposed Effective Date: Fall 2010
