

**Del Mar College Department of Nurse Education
RNSG 2360 - Level Four Clinical Evaluation Tool**

Instructions: The clinical instructor will complete the following graded form at the mid---term point (formative) and again at the conclusion of the clinical rotation (summative). Additional formative evaluations (prior to the end of the semester) may be required based on faculty observations. Items are ranked on the rating scale: 4 being the highest and 1 being the lowest. Only whole numbers will be assigned. Behaviors marked with an asterisk (*) will be recorded as (3) met or (1) not met.

Students are required to demonstrate patterns of safe, professional clinical performance as defined in the Critical Elements of Safe Nursing Practice (Student Handbook).

Student behaviors marked with a pound sign (#) are critical behaviors. These must be met with a score of 3 on the final summative evaluation in order to pass this course. These behaviors are based on the Critical Elements of Safe Nursing Practice (Student Handbook).

At the completion of RNSG 2360 the student will have been introduced to the following Differentiated Essential Competencies (DECs) for Diploma and Associate Degree Programs:

- I. **Member of the Profession: A, B, C, D**
- II. **Provider of Patient---Centered Care: A, B, C, D, E, F, G, H**
- III. **Patient Safety Advocate: A, B, C, D, E, F**
- IV. **Member of the Health Care Team: A , B, C, D, E, F, G**

Grading: The instructor will assign a rating to each item and a score will be totaled. A percentage score will then be calculated based on the achieved points / total points. ***The student must achieve a score of 75% or better on the summative clinical evaluation compiled by the instructor in order to pass the course.***

Students Rating Scale:

4. Behavior for outcome exceeds expectations. Student demonstrates excellence and strengths that are above expectations. Student consistently performs above what is expected for a fourth semester student. Student rarely requires direction.
3. Behavior for outcome is met. Student consistently performs professionally and meets the clinical behavior. Expectations for a fourth semester student are met. Student requires occasional written and verbal direction and or demonstration.
2. Behavior for outcome requires further development. Student is not consistent in performance and lacks self---direction, knowledge, and/or motivation. Minimal expectations for a fourth semester student are met. Student requires frequent written and verbal direction and or demonstration.
1. Behavior for outcome is not met. Student performance is inconsistent and does not reflect expectations for a fourth semester student. Student is unable to demonstrate behaviors and requires continuous written and verbal direction and or demonstration.

Instructor:	Semester:
Student:	

I. Member of the Profession	Formative					Summative
<i>The Fourth semester Del Mar College nursing student as a member of the profession:</i>	Date					Date
Expected Clinical Behaviors in the care of one to four patients:	FS					
1. Identifies value of life---long learning as evidenced by: a. Incorporating appropriate research based nursing references in the consideration of nursing care b. Using standards of care to guide patient care c. Actively seeking learning experiences with instructor guidance (I.D)						
2. Demonstrates knowledge of the nurse’s legal scope of practice by following: (I.A) a. Patient confidentiality and privacy (HIPAA) b. Patient rights c. Infection control						
3. The policies and procedures of Del Mar College Department of Nurse Education(I.A) * #						
4. Utilizes performance and self---evaluation process to improve individual nursing practice by completing reflection assignments. (I.C,D) *						
5. Demonstrates accountability and responsibility by practicing patient care in recognition of ethical considerations to patients and their families (I.B) *						

II. Provider of Patient Centered Care	Formative					Summative
<i>The Fourth semester Del Mar College nursing student as a provider of patient-centered care:</i>	Date					Date
Expected Clinical Behaviors in the care of one to four patients:	FS					
6. Identifies the pathophysiology of the exemplar for the assigned patient (s).						
7. Manages lab data and diagnostic studies to promote health and predict complications for assigned medical surgical, critical or psych mental health patients.						

**Del Mar College Department of Nurse Education
RNSG 2360 - Level Four Clinical Evaluation Tool**

8. Demonstrates preparation for medication administration by providing medication worksheets that contain accurate information related to pharmacological actions, indications, side effects, and nursing implications.						
9. Demonstrates clinical reasoning, knowledge, and evidence-based practice outcomes for decision-making in nursing care for patients in medical surgical, critical or psych mental health care settings. (II.A) #						
10. Develops a concept map reflecting the relationship of the concept to the exemplar of the assigned patient(s).						
11. Uses a concept analysis diagram to develop appropriate nursing diagnoses, interventions, and outcomes to provide care to patients in medical surgical, critical or psych mental health care settings. (II.C)						
12. Performs accurate physical assessments to identify normal and abnormal findings for patients in the medical surgical or critical health care settings. (II.B)						
13. Manages multiple data sources (physical assessment findings, SBAR report, Lab values and diagnostic studies) to prioritize and implement clinical decision-making for a group of patients. (II.B)						
14. Performs nursing skills using established procedures, as directed by the clinical instructor. (Student will maintain DMC DNE Nursing Skills Log)						
15. Demonstrates clinical decision making when administering medications using the rights of medication administration for a minimum of three times to multiple patients in medical						
16. Collaborates with the Registered Nurse in the delegation and decision making process to provide safe, compassionate, care to multiple patients, taking into consideration culture, ethnicity and family. (II.D) * #						
17. Implements the plan of care within basic legal, ethical, and regulatory parameters in consideration of disease prevention, wellness, and promotion of health lifestyles for multiple patients in medical surgical, critical or psych mental health care settings and their families (II.E)						
18. Evaluates and reports patient outcomes and responses to therapeutic interventions utilizing the SBAR format to the Licensed Nurse at the completion of the shift. (II.F)						
19. Implements and evaluates a teaching plan for a population within the community. (II.G)						
20. Collaborates with discharge planning nurses to observe coordination of human, information, and material resources in providing care for patients and their families in medical surgical, critical or psych mental health care settings. (II.H)

III. Patient Safety Advocate	Formative					Summative
	<i>The Fourth semester Del Mar College nursing student as a patient safety advocate:</i>					Date
	Expected Clinical Behaviors in the care of one to four patients:					Date
	FS					
21. Accepts responsibility to implement measures to promote quality nursing care and a safe environment for patient, self, and others. (III.B) * #						
22. Evaluates goals and outcomes using evidence---based data to reduce patient risks. (III.C)						
23. Obtains supervision from instructor when implementing nursing skills, procedures or practices. (III.D)						
24. Recognizes mandatory reporting requirements of the Texas Nurse Practice Act. (III.E)						
25. Demonstrates moral accountability and integrity as defined the Texas Nurse Practice Act (Rule 213.27 Good Professional Character). (III.A) * #						
26. Accept and make assignments and delegate tasks that take into consideration patient safety and organizational policy (III.F). a. Successfully meets the objectives of the role of student team leader experience.						

IV. Member of the Health Care Team	Formative					Summative
	<i>The Fourth semester Del Mar College nursing student as a member of the health care team:</i>					Date
	Expected Clinical Behaviors in the care of one to four patients:					Date
	FS					
27. Accurately documents in written and/or electronic health record (EHR) in timely manner. (IV.E)						
28. Professionally communicates accurate patient status using SBAR format (IV.A, D) a. When patient condition changes and warrants health care provider action b. Hand off report c. Post conference discussions						
29. Communicates and manages information using resources available and any technology to support decision---making to improve patient care while maintaining patient						
30. Promotes collaborative advocacy process for patients in the medical surgical and/or critical care or mental health care settings. (IV.B)						

**Del Mar College Department of Nurse Education
RNSG 2360 - Level Four Clinical Evaluation Tool**

31. Utilizes resources to facilitate continuity of care for patients in the medical surgical, critical care and/or psych mental health care settings that focus on health promotion, maintenance, and restoration. (IV.C)						
32. Evaluate nursing unit decision---making process to assign and delegate nursing care in the medical surgical health care setting. (IV.F) a. Evaluate the decision by reviewing data pertinent to the decision during the 'day at the desk' experience.						
33. Assist the Registered Nurse to supervise nursing care provided by others for whom the nurse is responsible by using evidence---based nursing practice. (IV.G) a. Successfully meets the objectives of the "day at the desk" experience.						
Total Maximum Points = 141						

**For clinical simulation experience(s), the minimum number of points correlating to a passing score (75%) is 39. This score will be recorded in the clinical gradebook*

The student will be evaluated on 37 clinical behaviors.

Students must earn a minimum of 105.75 points out of 141 points (75%) on the summative evaluation in order to pass this clinical course.
