QEP Update Fall 2007

In Spring 2007 four QEP proposed topics (provided below) were announced and interested parties were asked to submit their interest (May 21, 2007). By June 19, 2007 the selected proposals were announced. An explanation is included for paper that will not be written.

Proposal #1: Reading Across the Curriculum. The Developmental Education Council Chair, Dean Thorpe, expressed interest for the DEC Council based on interest in establishing content area cohorts to carry forward the work of Title V in problem based learning and coordination of assignments. On 7/13/07 they sent an email saying no interest had been generated at the faculty level and they would not be developing the white paper.

Proposal #2: Math Across the Curriculum. Professor Hugh Tomlinson responded to the call based on an interest of using an applied focus to technical programs.

Proposal #3: Supplemental Instruction. The Supplemental Instruction (SI) Committee with Stephanie Ding, Agnes Flores, Ron Huskin responded based on the work of the SI Committee.

Proposal #4: Student-Generated Portfolios with two responders.

• 4a Lucy James responded based on her research interest and use of portfolios.
• 4b Royceline De Leon responded based on research and use of e-portfolios.

These white papers are being posted on the SACS website for distribution. Additional information on the proposals and the white papers is listed on the DMC website has a QEP Update for Spring 2007 with information on the QEP timeline, the White Paper Characteristics, and Abstracts.
